RE: [REDACTED]
I-485, Application to Register Permanent Residence or
Adjust Status

REQUEST FOR EVIDENCE

Dear [REDACTED]

Why We Are Writing You

On July 22, 2019, you filed Form I-485, Application to Register Permanent Residence or Adjust Status, with U.S. Citizenship and Immigration Services (USCIS). We are writing to inform you that we need more information from you to make a decision on your case. Please read this letter carefully and follow all of the instructions below.

What You Need to Do

You must provide the following information in order for us to make a final decision on your case.

You must submit a new Form I-693, Report of Medical Examination and Vaccination Record. The Form I-693 that you submitted is no longer valid under the Form I-693 policy that went into effect on November 1, 2018. Under this policy, if the civil surgeon signed the Form I-693 no more than 60 days before you submitted the underlying immigration benefit application (such as a Form I-485, Application to Register Permanent Residence or Adjust Status) to USCIS, the Form I-693 will be valid for two years from the date the civil surgeon signed the form.

You submitted Form I-693 to USCIS on September 28, 2020. It was signed by a civil surgeon on March 11, 2020. You submitted the underlying immigration benefit application on July 22, 2019. The Form I-693 you submitted to USCIS is no longer valid because the civil surgeon signed Form I-693 more than 60 days before you submitted the underlying immigration benefit application.

Please return to a USCIS-designated civil surgeon to complete a new immigration medical exam. The civil surgeon must complete and sign Form I-693, and you must also sign the form. If the civil surgeon refers you to a specialist, the specialist must include his or her exam results and complete the proper sections of the Form I-693 before the civil surgeon may sign the form. Once everyone has signed, the civil surgeon will place the completed Form I-693 in a sealed envelope and give it to you. You must submit the sealed envelope containing the original Form I-693 that the civil surgeon signed and the

medical exam results; we will NOT accept photocopied Form I-693 and medical exam results.

Starting September 23, 2019, civil surgeons must use the 07/15/19 edition of Form I-693. USCIS will not accept the 10/19/17 version (or any previous editions) that a civil surgeon signed and dated on or after September 23, 2019.

When You Need To Do It

You must either mail the requested information to the address shown below or scan and upload your response using your USCIS online account (if applicable). You must submit the requested information by June 28, 2021. Please note, if the request is for original documents, you must submit that evidence by mail.

You must submit all of the requested evidence at one time. If you submit only part of the evidence, we will make a decision based on the evidence that you submit. We will not consider any evidence that is submitted after the due date. If you do not respond to this request by the date shown above, we will deny your case.

We strongly recommend you keep a copy of all documents that you submit to USCIS in response to this request.

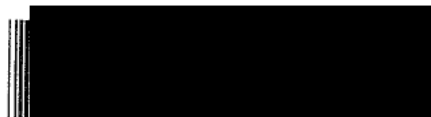

Please include a copy of this letter with your response by mail to this address:
